## Heritage Pistols & Other Section 5 Weapons

We are delighted to offer Lots 551-572 under instruction from Col. David Maitland-Titterton (Retd).

When (David Maitland Titterton) the Vendor of the following Lots was commissioned into the North Irish Horse (TA) in 1951, his discovery of a rusted 1913 Luger ignited a lifelong intrigue with firearms. Graduating from Sandhurst in the mid-1950s, he joined the 12th Royal Lancers as a Second Lieutenant, advancing through roles that showcased his leadership. His passion for pistols grew, culminating in a revered collection that included historical gems like the Mauser and the Luger.

Titterton's career then led him to BAOR Germany in 1966, where he was promoted the role of Squadron Leader and at which time he acquired the 7.63 Broom Handle Mauser and holster with the upside down brass hook to secure it to his Sam Browne belt. At the US Armor School in Fort Knox, he shared his expertise with American troops, expanding his collection to include iconic pieces like the P35 High Power Browning, but also the bandolier from Brazil, various holsters with cleaning kit, ammo pouches and accessories. Returning to the BAOR in 1970, he climbed the ranks to Second in Command and collected the P08 Long Barrel Artillery Luger, Marks 1 & 2 Snail Drum Magazines with dust covers, cleaning kit, ammo pouches, etc.

His story transcended borders with his stint with the British Army Training Team in Khartoum in 1972. Returning to the MoD as a Colonel in 1975, subsequently becoming Defence Attache in Damascus in 1978, further deepening his diplomatic contributions. Through a life steeped in military service and a profound affinity for firearms, his legacy remains intertwined with history, diplomacy, and this cherished collection.

On retirement, the owner was recruited by the MOD to set up and manage the Range Safety Inspection Team. Until recently, the pistols had to be stored and fired at Bisley in the Heritage Pistol Range.
